

enablingMNT Industry Reviews

the leading source for intelligence in micro nano technologies (MNT)

enablingMNT Industry Reviews are acknowledged by the experts as highly informative reports which help in establishing technology as well as investment strategies. *enablingMNT reviews* are available for sponsorship. There are, currently, two modes of sponsorship, namely:

1. Sponsorship of individual reviews at €550

This sponsorship provides your organisation with a **½ page full-colour space for an advertisement**; as well as space for a **small logo on the footer of every page**.

2. Prime sponsorship for a series of at least 6 reviews (at €550 for each of the reviews)

This level of sponsorship provides your organisation with a **½ page full-colour space for an advertisement** in each review published within the series in question; as well as space for a **small logo on the footer of every page**. In addition, **prime sponsor's logos** will be included on our **website** (including a link to the sponsor's home page), **mailings**, and **press releases**.

However, an organisation may not sponsor the review of this series in which its own profile is listed as a service provider, but all other reviews of the series are open for sponsorship.

Sponsorship with a smaller advertising space (e.g. ¼ page advert instead of ½ page) is available at €350.

Sponsors are entitled to purchase reviews of this series at a promotional rate of €140, i.e. sponsoring and purchasing a copy of a single review will be available at €690 (550 + 140), or at €4140 for a series of 6 reviews.

enablingMNT Industry Reviews have been established as the major source of 'reliable worldwide industry data for MNT' with topics all along the MNT industry supply chain (2-3 reviews are planned per year including updates). Discussions with newcomers to the MNT field have shown that there is a large demand for 'low-cost' reports covering dedicated topics of services and infrastructure. In addition, established microsystems companies have asked for a directory of competing offers.

The following enablingMNT Industry Reviews are available:

- MST/MEMS Activities in China - Industry and Key Research Centres, Aug 2007 (€480)
- Design and Engineering Companies for MST/MEMS – worldwide, Jan 2007 (€280)
- Foundries for MST/MEMS – worldwide, Nov 2005 (€280)
- Processing Service Suppliers for MST/MEMS – worldwide, May 2005 (€280)
- Test and Measurement Equipment and Services for MST/MEMS – worldwide, Dec 2004 (€280)
- Suppliers of Materials for MST/MEMS Production – worldwide, Sep 2004 (€280)
- MNT Web Directories and On-line Communication Channels – worldwide, Aug 2004 (€280)
- Equipment Suppliers for Nanofabrication – worldwide, Apr 2004 (€280)
- Back-End Manufacturing Equipment Suppliers for MST/MEMS – worldwide, Nov 2003 (€280)
- Front-End Manufacturing Equipment Suppliers for MST/MEMS – worldwide, Nov 2003 (€280)
- Packaging and Assembly Services for MST/MEMS – worldwide, Oct 2003 (€280)

Reviews under preparation (information is available on request):

- Design, Modelling and Simulation Tools for MNT – worldwide
- Packaging and Assembly Services for MST/MEMS – UPDATE 2008
